

# GOVERNMENT (A) COLLEGE RAJAHMUNDRY

## DEPARTMENT OF STATISTICS

### REPORT ON FIELD VISIT TO AP PAPER MILL

**Institution:** Government Autonomous College [A], Rajahmundry

**Department:** Department of Statistics

**Title of the Activity:** Field Visit to AP Paper Mill

**Date:** 13-08-2025

**Venue:** AP Paper Mill, Vemagiri, Kadiyam Mandal, Rajahmundry

#### **Introduction:**

The Department of Statistics, Government Autonomous College [A], Rajahmundry organized a field visit to AP Paper Mill, Vemagiri, on 13-08-2025 as a part of academic learning. The visit aimed to provide students with practical exposure to industrial processes and the application of statistical concepts in real-time operations.

#### **Objectives:**

The primary objectives of the field visit were to understand the production process in the paper industry, observe the use of statistical methods in quality control, and bridge the gap between theoretical knowledge and practical application.

#### **Event Description:**

During the visit, students were given an overview of the paper manufacturing process, including raw material handling, pulping, processing, and final production. Industry experts explained the role of statistics in maintaining quality standards, process optimization, and decision-making.

The students actively observed different stages of production and gained insights into data collection, analysis, and interpretation used in the industry. The visit provided a valuable learning experience by exposing students to real-world applications of their subject.

#### **Participation Details:**

- **Staff Members:** 02
- **Students:** 40

#### **Key Highlights:**

- Practical exposure to paper manufacturing processes.
- Understanding the application of statistics in quality control and production.
- Interaction with industry professionals.
- Enhancement of students' analytical and observational skills.
- Bridging the gap between classroom learning and industrial practices.

**Conclusion:**

The field visit to AP Paper Mill was highly informative and beneficial for the students. It enriched their knowledge by providing practical insights into the application of statistics in the industrial sector. The visit successfully achieved its objectives and contributed to the overall academic development of the students.
